

Alaska Electric Light and Power Company

**State of Alaska
Public Utilities Commission**

RULES AND REGULATIONS

10. Special Services

10.1 Charges

For services of this nature, the customer will be charged the Company's actual cost, including labor, transportation, materials, indirect costs and overhead.

All work done by the Company for customers, in addition to standard services associated with supplying electric service, will be charged for on the basis of costs and conditions defined herein.

For certain special services, the Company has established fixed charges in the Schedule of Fees and Charges based upon representative average costs of such services.

10.2 Nature of Service

Examples of services considered special include:

- (1) Installation of temporary services.
- (2) Connecting or disconnecting service outside regular business hours.
- (3) Service or other facilities relocation at the customer's request.
- (4) Making emergency repairs to the customer's electrical equipment.
- (5) Service call-out for serve restoration when interruption was caused by customer's equipment or act.

Effective February 1, 1989
